

Beverly Kidder
Agency on Aging of South Central CT
New Haven, CT

Dear Beverly Kidder:
For the past two years, while my arthritis is getting worse, I tried unsuccessfully to raise money for chair lifts for my stairs. Then a few months ago I was awarded a grant for the chairlifts. Halfway there, I met a bright positive star in my life — LaToya Myers. A very lovely positive young woman with a very positive attitude. After a few phone calls she came up with a name of a foundation that she pursued. I got her the papers she requested + off went every-

2

thing! About ten days later I got a call from Trillian, who told me I would get a call the following Thursday! Last Thursday at 4:30 the call came. I couldn't believe it when she told me the board voted to give me the money! I was afraid to believe it. I had so many "Nos", I could paper a wall in my bedroom. I could not believe it! It was a miracle. This Monday, between 10 & 11 they are to be here to install the chairs. I wanted you to know how wonderful it was to work with LaToya. Many thanks for having her on your staff!
